About Me

Final-year Computer Science Engineering student and Full Stack Developer with hands-on experience in React.js, Node.js, Express.js, MongoDB, and RESTful APIs. Skilled in building responsive, scalable, and user-centric web applications. Strong problem-solving ability with a solid foundation in DSA, OOP, and Agile practices. Seeking an entry-level Software or Web Developer role.

Experience

Web Development Intern

Dec 2025 – Present

SaiKet Systems – Remote

- Developed responsive and user-centric web interfaces
- Worked on performance optimization and UI improvements
- Followed best practices in frontend collaboration

Web Development Intern

Dec 2025 – Present

Dynamix Networks – Remote

- Built responsive interfaces using HTML, CSS, and JavaScript
- Collaborated remotely with structured workflows and Git
- Gained real-world development and debugging experience

Projects

Vingo – Real-Time Food Delivery App | MERN Stack

- Real-time food delivery platform with modern responsive UI
- Users can browse restaurants, order food, and track deliveries live
- Secure authentication and dynamic order management
- Admin panel for managing users, restaurants, and orders
- Live: food-delivery-vingo-frontend.onrender.com — GitHub: Repository

CineCircle – Movie Social Platform | MERN + Socket.io

- Social movie platform with posts, reviews, and feeds
- Real-time chat and notifications
- Friend system and engagement features
- Live: cine-circle-ten.vercel.app — GitHub: Repository

LMS – Learning Management System | MERN

- Role-based LMS with JWT authentication
- Task assignment, submissions, and progress tracking
- Admin dashboard with optimized REST APIs
- Live: code-lms-net.vercel.app — GitHub: Repository

Technical Skills

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind
